# CONTENTS OF VOLUME 34

## Number 1

| | | |
|---|---|---|
| ADAM STAWOWY | 1 | Evolutionary strategy for manufacturing cell design |
| JAE H. PAE, JUNG SUK HYUN | 19 | Technology advancement strategy on patronage decisions: the role of switching costs in high-technology markets |
| JAMES ODECK | 28 | Identifying traffic safety best practice: an application of DEA and Malmquist indices |
| FARIBORZ Y. PARTOVI | 41 | An analytic model for locating facilities strategically |
| HOKEY MIN, HYUN JEUNG KO, CHANG SEONG KO | 56 | A genetic algorithm approach to developing the multi-echelon reverse logistics network for product returns |
| CHI-KEUNG WOO, IRA HOROWITZ, ARNE OLSON, BRIAN HORII, CARMEN BASKETTE | 70 | Efficient frontiers for electricity procurement by an LDC with multiple purchase options |
| JENG-FUNG CHEN, TAI-HSI WU | 81 | Total tardiness minimization on unrelated parallel machine scheduling with auxiliary equipment constraints |
| W.L. PEARN, CHIEN-WEI WU | 90 | Critical acceptance values and sample sizes of a variables sampling plan for very low fraction of defectives |
| | 102 | Acknowledgement to referees (From September 25, 2004 to July 26, 2005) |

## Number 2

| | | |
|---|---|---|
| SUHONG LI, BHANU RAGU-NATHAN, T.S. RAGU-NATHAN, S. SUBBA RAO | 107 | The impact of supply chain management practices on competitive advantage and organizational performance |
| TZU-CHUAN CHOU, SHYI-CHYI CHENG | 125 | Design and implementation of a semantic image classification and retrieval of organizational memory information systems using analytical hierarchy process |
| KEN NAKABAYASHI, KAORU TONE | 135 | Egoist's dilemma: a DEA game |

| | | |
|---|---|---|
| Chao-Ton Su, Jyh-Hwa Hsu | 149 | Precision parameter in the variable precision rough sets model: an application |
| Waiel F. Abd El-Wahed, Sang M. Lee | 158 | Interactive fuzzy goal programming for multi-objective transportation problems |
| Carlos Gomes da Silva, José Figueira, Joo Lisboa, Samir Barman | 167 | An interactive decision support system for an aggregate production planning model based on multiple criteria mixed integer linear programming |
| Chihiro Watanabe, Jae Yong Hur, Shanyu Lei | 178 | Converging trend of innovation efforts in high technology firms under paradigm shift—a case of Japans electrical machinery |
| K. Kosmidou, F. Pasiouras, C. Zopounidis, M. Doumpos | 189 | A multivariate analysis of the financial characteristics of foreign and domestic banks in the UK |
| Beatriz Abdul-Jalbar, Jose M. Gutiérrez, Joaquín Sicilia | 196 | Single cycle policies for the one-warehouse N-retailer inventory/distribution system |

**Number 3**

| | | |
|---|---|---|
| Tolga Bektas | 209 | The multiple traveling salesman problem: an overview of formulations and solution procedures |
| Mark Vroblefski, Evelyn C. Brown | 220 | A grouping genetic algorithm for registration area planning |
| Tariq A. Aldowaisan, Ashraf S. Youssef | 231 | An ISO 9001:2000-based framework for realizing quality in small businesses |
| Grover S. Kearns | 236 | The effect of top management support of SISP on strategic IS management: insights from the US electric power industry |
| G.S. Dangayach, S.G. Deshmukh | 254 | An exploratory study of manufacturing strategy practices of machinery manufacturing companies in India |
| Mehmet Savsar | 274 | Effects of maintenance policies on the productivity of flexible manufacturing cells |
| Ding Zhang | 283 | A network economic model for supply chain versus supply chain competition |

DANIEL I. PRAJOGO, AMRIK S. SOHAL 296 The integration of TQM and technology/R&D management in determining quality and innovation performance

ADOLFO CRESPO MARQUEZ, JATINDER N.D. GUPTA 313 Contemporary maintenance management: process, framework and supporting pillars

**Number 4**

JI-BO WANG, ZUN-QUAN XIA 327 Flow shop scheduling with deteriorating jobs under dominating machines

METTE ASMILD, JOSEPH C. PARADI, DAVID N. REESE 337 Theoretical perspectives of trade-off analysis using DEA

TAKAMICHI HOSODA, STEPHEN M. DISNEY 344 On variance amplification in a three-echelon supply chain with minimum mean square error forecasting

MARKUS BIEHL, HENRY KIM, MICHAEL WADE 359 Relationships among the academic business disciplines: a multi-method citation analysis

W.A. TAYLOR, G.H. WRIGHT 372 The contribution of measurement and information infrastructure to TQM success

ADIL BAYKASOGLU, TURKAY DERELI, IBRAHIM SABUNCU 385 An ant colony algorithm for solving budget constrained and unconstrained dynamic facility layout problems

HSIU-YUAN TSAO, LEYLAND F. PITT, PIERRE BERTHON 397 An experimental study of brand signal quality of products in an asymmetric information environment

CHENG-YUAN KU, DAVID C. YEN, I-CHIU CHANG, SHI-MING HUANG, SCOTT JORDAN 406 Near-optimal control policy for loss networks

**Number 5**

B. CASU AND E. THANASSOULIS 417 Evaluating cost efficiency in central administrative services in UK universities

CHENG ZHANG, GEK-WOO TAN, DAVID J. ROBB AND XIN ZHENG 427 Sharing shipment quantity information in the supply chain

WILLIAM FORBES 439 The boys in the bubble: Internet entrepreneurs and stock market value

| | | |
|---|---|---|
| TERRY ANTHONY BYRD, EVELYN H. THRASHER, TERESA LANG AND NANCY W. DAVIDSON | 448 | A process-oriented perspective of IS success: Examining the impact of IS on operational cost |
| RUBÉN RUIZ, CONCEPCIÓN MAROTO AND JAVIER ALCARAZ | 461 | Two new robust genetic algorithms for the flowshop scheduling problem |
| KAMAL SMIMOU | 477 | Estimation of Canadian commodity market risk premiums under price limits: Two-phase fuzzy approach |
| KWEKU-MUATA OSEI-BRYSON AND ANITO JOSEPH | 492 | Applications of sequential set partitioning: a set of technical information systems problems |
| JINXING XIE AND SONG AI | 501 | A note on "Cooperative advertising, game theory and manufacturer–retailer supply chains" |
| MUNSUNG RHEE AND SATISH MEHRA | 505 | Aligning operations, marketing, and competitive strategies to enhance performance: An empirical test in the retail banking industry |

**Number 6**

**Reverse Production Systems**

| | | |
|---|---|---|
| B. ADENSO-DÍAZ | 517 | Foreword |
| CAROL PRAHINSKI, CANAN KOCABASOGLU | 519 | Empirical research opportunities in reverse supply chains |
| RUUD H. TEUNTER | 533 | Determining optimal disassembly and recovery strategies |
| A.J.D. LAMBERT | 538 | Exact methods in optimum disassembly sequence search for problems subject to sequence dependent costs |
| ELIF KONGAR, SURENDRA M. GUPTA | 550 | Disassembly to order system under uncertainty |
| C. FRANKE, B. BASDERE, M. CIUPEK, S. SELIGER | 562 | Remanufacturing of mobile phones—capacity, program and facility adaptation planning |
| Z. PELIN BAŸINĎIR, ROMMERT DEKKER, ERIC PORRAS | 571 | Determination of recovery effort for a probabilistic recovery system under various inventory control policies |

| | | |
|---|---|---|
| LI ZHOU, MOHAMED M. NAIM, OU TANG, DENIS R. TOWILL | 585 | Dynamic performance of a hybrid inventory system with a Kanban policy in remanufacturing process |
| SHIVAKUMAR VISWANATHAN, VENKAT ALLADA | 599 | Product configuration optimization for disassembly planning: A differential approach |
| JOAQUÍN BAUTISTA, JORDI PEREIRA | 617 | Modeling the problem of locating collection areas for urban waste management. An application to the metropolitan area of Barcelona |
| | I | Volume Contents, Author and Keyword index |
| | XI | Call for papers |
